EXPERIENCE

- Work as a Web developer at sync interns from 01/07/2023 till 01/08/2023.
Here is my offer letter [\[Link\]](#)
- I also volunteer for the non-profit organization “Desh ke Mentor” where I mentor government school students to help them decide their career paths.

PROJECTS

- [Shopping Cart](#)
 - It is a fully responsive multi-page website with React.js, Tailwind CSS, Redux, and React Icons for seamless experience.
 - Effortlessly retained user-selected items across pages, storing the cart for easy access between sections.
 - Empower users to effortlessly customize their selections with intuitive options to add or delete items from both the homepage and cart.
 - Automated Cart bill generation, ensuring user-friendly transparency.
- [Quiz game](#)
 - In this we use html, CSS, JavaScript technique.
 - In this we set a question which have 3 options and only one correct answer.
 - It this you give answer in just 5 sec time .
 - At the end you see your score card with emoji.
- [Password-generator](#)
 - In this we use html, CSS, JavaScript technique.
 - In this we create a password by using combination of character, number and symbols.
 - Also give hint that password is strong or not.
 - Also added flexible length of password.
